One of the most successful dog books of all time Advanced Labrador Breeding has now been reincarnated as Reaching for the Stars. Everything in the original book has been retained and new sections added to highlight successful breeders and kennels of other breeds in the USA and Australia. In this book, Mary Roslin Williams analyses how balance, symmetry, quality and beauty all play a part in the making of champions. She explores what qualities make a good breeder and the problems they have reaching the top of their field. She also explores why a top breeder stays at the top of the profession for so many years. Other topics covered in this lively and informative book include her strong feelings on faults, failings and virtues in the ring and her amazing insight in describing the seven ages or stage of the development of a breeder.

Mothers of Influence, Honor Books, Honor Books Publishing Staff, 2005, Religion, 250 pages. Inspiring stories of women who made a difference in their children and their world. You really are changing the world!
